

Weekly Short-term Restrictions Update for Annual Permit Holders

WARNING

The list of short-term restrictions on state routes is updated daily, and published weekly as conditions change. It is the responsibility of the permit holder and the operator of the extra-legal vehicle/load to check to see if any additional restrictions have been added to your authorized route before beginning each trip.

You may get the most current status of any such restrictions on your authorized route by accessing the Route Clearing database on-line at <http://www.dot.ca.gov/hq/traffops/permits/>. You can also verify vertical restrictions by using a vertical clearance measuring device authorized by California Vehicle Code Section 35252.

All annual and repetitive permit holders are required to receive this information

and to keep a copy with their permit during all moves.

If you believe you are receiving this message in error, please contact **Manuel Balderama** at (916) 651-6529.

For questions regarding these Restrictions, please contact **Jay Horton** at (916) 322-4957.
